The table above shows the number of households with a matching, missing or unmatched postcode for each wave.

The main reason for not recording the postcode is for untraced moves.

Between Wave 7 and 11 the Northern Ireland ECHP panel households were interviewed as a part of BHPS. For these 135-149 households the postcode was not collected. The Northern Ireland ECHP panel can be identified through WHHORIZ.

Geographical codes are unavailable for a few households in the Crown dependencies.
